

Comprehensive Care for Teens and Young Adults

What is the missing piece in residential treatment? Too often, a comprehensive and successful residential placement is undone when a teen or young adult returns home and the family does not get the support they need to integrate the work. The young person returns to the same family dynamics and the same peer influences. Too often, homeostasis reasserts itself and prior behaviors are at risk of resuming.

Since 1996, Larry Fritzlan Recovery Services has offered intensive outpatient treatment programs for troubled teens and young adults. We offer a family-systems oriented intensive outpatient extended care program. In order to ensure success, we understand that the parents need to be just as involved as their children throughout the treatment process.

- *Family, Individual, Peer, and Multi-Family Group Therapy*
 - *12 Step Support for Substance and Process Addictions*
 - *Comprehensive Drug Testing*
 - *Long-Term Program - One Year*
 - *For Young Adults - Move into Sober Living Environment, Get Employed*
- *Require Parents be in Treatment/Recovery while their Child is in Placement*

Please call us at (415) 945-0923 to talk about ensuring continuing care for your residents and their families.
